5th Annual Golf Scramble

T.J. Whitehead was just 18 years of age when he took his own life after battling drug and alcohol addiction for the majority of his adolescent life. T.J.'s Place of Hope was created in his memory.

T.J.'s Place of Hope is an organization of compassionate people helping teens and young adults battling addiction and destructive behaviors to realize their **full potential and dreams!** T.J.'s is a unique place where teens and young adults can support AND receive support from others their own age. They can also attend meetings facilitated by an experienced adult; many recovering addicts themselves that understand what they are going through and their challenges.

Our goal is to encourage these young men and women to grow and heal while fostering and nurturing their observed creative, natural talents (for example Art & Music). A main component of our mission is to move them through addictive & suicidal episodes with short term distractions while teaching them long term coping mechanisms. We also help family and friends find treatment solutions for their teens and welcome those who are not addicted themselves, but are impacted by affected family members or friends.
